Motivated and detail-oriented 3rd-year Computer Science Engineering student at Geethanjali College of Engineering and Technology with a strong foundation in Data Analytics, MERN stack and DSA. Passionate about learning new technologies and contributing to innovative solutions in software engineering and development.

## PROJECTS

- **Tower of Hanoi Game | 2022 - 23**  
A general game designed using C and Java, implementing Dynamic memory structures and efficient algorithms to solve the puzzle with customizable disk movements.
- **Flight Booking Management System | 2023 – 24**  
A Database management system created to organize and maintain the data in a well-structured way for any aviation industries.
- **Simon Game | 2024**  
Developed an interactive Simon game using JavaScript, jQuery, and HTML/CSS, implementing dynamic UI updates and event-driven gameplay..
- **Random Dice Game | 2024**  
Developed a dynamic dice rolling game using JavaScript, implementing random number generation and interactive UI updates.

## EDUCATION

**Bachelor of Technology in CSE**, Geethanjali college of engineering and technology(CGPA: 7.94)  
**Senior Secondary in Science**, Sri Chaitanya  
**Secondary Education**, Sri Chaitanya school

2022 – 26 Hyderabad, India  
2020 – 22 Hyderabad, India  
Hyderabad, India

## SKILLS

- MS Excel
- Python for Data Analysis
- Machine Learning with R
- MySQL, PostgreSQL
- UNIX command line
- MERN stack(Express.js with Node.js, React)
- Power BI for Data Visualization
- Data Structures and Algorithms

## AWARDS

<b>Certificate of Participation</b> Cyber Congress	Oct 2023
<b>Certificate of Virtual Internship</b> Google AI-ML Eduskills	May 2024
<b>Award of Course Completion</b> Java Programming by ORACLE Academy	May 2024
<b>Certificate of JavaScript(Basic)</b> Certified by HackerRank for JavaScript(Basic)	Feb 2025
<b>Certificate of Completion</b> Web Development Bootcamp by Udemy	April 2025
